OVERVIEW

This 285 hour course [Play Video](#) takes place onsite as well as offsite. A unique aspect of this course is that it is ongoing therefore students can start at anytime.It is available in two formats, onsite and distance. We also offer our [Diploma](#) [Play Video](#) course in Vancouver. What follows is a description of the Onsite Basic course. The distance course is the same with the exception of the 50 hour onsite portion. Some basic courses in Vancouver and outside of Vancouver allow the student to complete the onsite require in an intensive format (5 or 6 days.) Students attend approximately 1 weekend per month until they reach a total of 50 hours.They also have the

option of continuing to attend sessions after 50 hours at a cost of \$20.00/hour. The onsite sessions will have a strong focus on basic and advanced hypnotic techniques, counseling skills and other complementary approaches. There is much focus on the works of Dr. Milton Erickson as well as a strong practical component. Between onsite sessions students will be completing the Counseling course at home. This is achieved by reading "The Skilled Helper" and completing the corresponding assignments during and after the onsite sessions. Students will view video DVD's containing further instruction and actual sessions. The Practicum is the last part of the course. Here the student has an opportunity under indirect supervision to put their skills to the test. During this time the student works with 5 clients completing 5 sessions with each client and videotape 1 session with 1 client as well as other assignments and an open book exam.

The offsite portion of the course begins when the student receives the course materials which consist of :

- 37 page course manual
- 70 page Video Manual
- 4 DVD's (45 hours of Video)
- Counselling textbook and workbook (purchased separately)
- Therapeutic Trances textbook (purchased separately)

Please note: Our Basic and advanced Vancouver Courses can now be taken through our [Virtual Classroom](#) Live Online.

Typically, materials are sent out before the onsite portion begins giving the student an opportunity to start the course when the materials are received.

The student continues working with those materials throughout the onsite portion and after until he/she completes all of the assignments including a Practicum and submits them for review.

Upon successful completion of the assignments the student receives a certificate from The Orca Institute as a "Resident Hypnotherapist" and upon joining the "[International Association of Counseling Hypnotherapists](#)" receives a certificate from the association as a "Resident Hypnotherapist". The Orca Institute is also an approved school with the American Board of Hypnotherapy and is registered with the [PCTIA](#) Play Video (Private Career Training Institutions Agency of BC).

Who should attend?

The intent of this course is to provide the student with the hypnotherapy and counseling skills necessary to be in private practice or as complement to an existing practice in the health care field. It is very experientially oriented and includes a broad spectrum of therapeutic approaches. It is well suited for anyone in the complementary Health Field or for individuals who would like to start a new career. There are no academic pre-requisites for this course as it starts from basic Counselling and Hypnotherapy skills.
