### THE CANADIAN HOLISTIC MEDICAL ASSOCIATION

In the medical field, few of my colleagues receive such well organized and comprehensive training in the field of hypnotherapy. Medical doctors and psychologists would be well served by the certification offered by Orca.

**Zoltan P. Rona, M.D.,M.Sc. President,  
Canadian Holistic Medical Association

The comprehensive course material has enhanced my work with people in distress and pain as I now use the counseling hypnotherapy and self-hypnosis techniques taught in this helpful course. This work has met with favorable response, not only from patients, but also from physicians, nurses and other members of our team. I have been asked to speak at several forthcoming conferences across Canada explaining the application of these techniques for cancer patients. I have no hesitation in recommending The Orca Institute.

In my opinion the course material is excellent, well organized, comprehensive, and covers the field of hypnotherapy very well. I was pleased to note that Dr. Milton Erickson is given so much prominent attention, and that his system of using hypnosis has been incorporated. I knew Dr. Erickson personally, having met him in 1952 at the home of Mr. Aldous Huxley in Los Angeles. I do agree that the mastery of this course of instruction would enable any person who has really studied it to produce high quality work.

This learning was pivotal in my career transition. Participating in the Orca Institute's training was this learners "breath of fresh air" concerning training materials, experiential learning and training. The Orca Institute provides a flexible, progressive, open approach which empowers the learner to trust themselves.

As an established and practicing Hypnotherapist, I found the course work and supporting material provided by the Orca Institute to be enjoyable. It was well organized, transitioned equally well and the supporting required text material went well with the general trend of the course. I would highly recommend this series of course work for any serious student. It was fun as well as challenging!

You have a wonderful course. I was looking for a certification course that was more than the weekend workshops I have heard about. I was thrilled to have found yours.

Thanks for the wonderful classes! And thanks for the technology which allowed me to be able to receive great lessons without the need of having to work towards a Canadian visa... I look forward to the future new courses!

Thank you so much for the class! I learned a lot more than I imagined I would.....you really have a great way of imparting the information; the class is kind of a "Sheldon original" I think, and I feel fortunate to have found it.
